BOARD OF EDUCATION MEETS.

The County Board of Education met Saturday, May 29th, with all members present. After disposing of some financial matters and other minor business, the board selected, or placed teachers for some of the schools.

Forty white teachers and two colored teachers are still needed. Yet, there are several white teachers in the county not placed. The board will meet again 1st Saturday in July. If you are not satisfied with the teacher, or teachers selected for your school, let it be known.

The board will try to please the patrons, and not run over the wishes of the patrons of the school. I don't believe they would, if sufficient complaints and reasons were made. No teacher should take charge of a school where there is general opposition. A teacher has a hard enough time when harmony prevails. A teacher will sometimes do much more satisfactory work in one community than in another, i. e., be successful in one community and a failure in another.

Announcement of the meeting of the board is always made in your county paper. If you don't take your county paper you should, as it is more than an average county paper and has always held high the banner of education. An education is the greatest asset for your child. Therefore, take an interest and help build your county schools.

Most respectfully,

W. L. Dixon, co. Supt.
